

## Number-Line Squeeze Directions

**Materials**  *Math Masters*, p. 464

2 counters

**Players** 2 or more

**Skill** Compare and order numbers

**Object of the Game** To guess a mystery number on the number line

### Directions

1. Place the counters on both ends of the number line.

2. One player thinks of a mystery number on the number line.

3. The other players guess the mystery number. If the guess is too high, the first player moves the right counter over to cover the guess. If the guess is too low, the first player moves the left counter over to cover the guess.

4. Repeat Step 3 until the mystery number is guessed.

5. Switch roles and play again.
